

## | YOUR TOTAL COST ADVANTAGE

### The Best Raw Material

Our mill is located in a premium Alabama hardwood forest offering a high quality, alternative to Russian, Brazilian, and Asian imported frame stock.

### Safe + Trusted

Made in the USA. We have delivered a consistent, sustainable, and rock-solid supply of hardwood products to OEM's and distributors for over 75 years.

### Inventory Cost Savings

Our vertically integrated mills produce every type of hardwood veneer and we stock all major core types, allowing for just-in-time shipments that save you money.

### All You Need On One Truck

Our flexible manufacturing equipment produces many types of hardwood plywood, including 4x8, 5x8, 5x5 Platforms and Strongply.

### Consistent Grade + Superior Quality

Our experienced workforce and modern equipment consistently deliver the high quality panels that the largest furniture manufacturers in North America count on.

### Helpful Problem Solvers

Our highly technical sales and operations teams are committed to helping you overcome your most difficult panel engineering and supply chain challenges.
